NEW METHOD LAUNDRY,

E. W. LAWRENCE, Proprietor.

No. 8 W. Romana St., Pensacola, Fla.

TRIAL WILL COST MANY THOUSANDS

Already Williams Case Has Cost About \$2,000, and This Will Be Greatly Increased at Second Trial, Which Convenes on November, 16.

ALL OF THE WITNESSES TO GO FROM PENSACOLA WILL RECEIVE 5 CENTS PER MILE, IN ADDITION TO PER DIEM, AND SEVERAL THOUSAND MORE WILL THUS BE ADDED.

The trial of William F. Williams for the murder of John White and Edwin C. Danahy, will likely cost Escambia county a large sum before it is concluded. The first trial, which concluded last week, was a rather expensive one, it being estimated that witnesses, jurors and other expenses had reached the sum of \$2,000. The change of venue for the second trial will make the expense much greater, as all witnesses will have to go from this county to Marianna.

The case, so far has been a very expensive one, owing to the fact that a large special venire was necessary, owing to the prominence given the case, and the jurymen out of the city at once received mileage for the distance they traveled. The jurors alone cost the county something over \$1,000.

There will be a saving, however, in one direction by the change of venue. In Jackson county there is little known of the case, and with a special venire of fifty, it is anticipated that a jury can be procured.

It has been conceded by attorneys on both sides that it would have been almost an impossibility to secure a jury in this county, owing to the publicity given the case by the newspapers, and the change of venue was thus welcomed.

About Twenty Witnesses.

There will be about twenty witnesses to go from this city to Marianna when the case is called. In addition to the per diem, each witness will receive 5 cents per mile traveled, making a total of about \$13.50 each for mileage alone. The per diem will be estimated at this county, and it is estimated that to hear the testimony in the case it will cost Escambia county about \$16.50 for each witness heard, and this will amount to quite a sum. In addition there are the jurymen and other expenses.

Special Venire to Be Drawn.

The court will convene in Jackson county on November 13th, and a special venire will be issued for a jury a few days prior. The case from Escambia will be given the right of way, and it is estimated that it will be completed within three days.

Williams, charged with murdering Danahy, will go to Jackson county, in charge of the sheriff, several days ahead of the date set for his trial. He will be present in court when the venire is drawn, and will remain there until the trial is concluded.

The cost to Escambia county for trying Williams will amount to something like \$5,000.

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy, and then a dose of castor oil, and the disease will be checked in its incipency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all druggists.

RUSSIAN MUTINEERS COMING TO AMERICA

By Associated Press.
New York, Aug. 21.—Funds are being collected on the east side with the stated object of bringing into the city the sailors who mutinied recently aboard the Russian battleship Potemkin of Odessa. There are about 400 of the mutineers, most of whom are now in Romania and Rome. If they consent to come here, positions will be found for them.

WILL INTEREST MANY.

Every person should know that good health is impossible if the kidneys are deranged. Foley's Kidney Cure will cure kidney and bladder disease in every form, and will build up and strengthen these organs so they will perform their functions properly. No danger of Bright's disease or diabetes if Foley's Kidney Cure is taken in time. W. A. D'Alemberte, Druggist and Apothecary.

THE BAR PILOTS ELECT NEW OFFICERS

Annual Meeting of the Association Was Held Last Night.

The annual meeting of the Pensacola Bar Pilots Association was held last night, when officers were elected and other business transacted. The meeting last night was the nineteenth held since the organization of the present association, and with a few exceptions every member was in attendance.

Officers elected were as follows: President—Howard L. White. Vice-President—Chas. B. Langford. Secretary—Jas. L. Scholls. Treasurer—C. McK. Oerting. Finance Committee—Chas. Perry, Jas. Bazzell and J. O. Seelye. Auditing Committee—John H. Caro, P. W. Jones and W. A. Bell. Captains—Chas. Perry, Jas. Bazzell, A. D. Ferguson and W. J. Oldmixon.

SMALL FIRE OCCURRED ON STEAMER TARPON

A small blaze occurred Sunday night on board the steamer Tarpon, which, at the time, was moored alongside of Commandancia wharf.

The steamer had completed discharging her cargo, and was preparing for her trip to Mobile, when fire was discovered in the engine room. This was extinguished in a few moments by the crew of the steamer, the loss being small.

Chinese Bandits Annihilated.

St. Petersburg, Aug. 21.—An official dispatch from General Linvitch to the Emperor dated August 16, says that a Russian detachment has annihilated a band of Chinese bandits in the Lungchen district. The leader of the band and two Japanese were among the dead.

Linvitch Has a Big Army.

London, Aug. 21.—The Daily Telegraph's Japanese correspondent at Moji says that General Linvitch's defense works are now complete. His troops number between 400,000 and 500,000. Train loads of troops are arriving from Russia and many are being sent to the Tumen.

Colliery Strike in Poland.

Paris, Aug. 21.—A dispatch to the Matin says that a strike has been declared in four large collieries in the Sosnowice district, (Russian Poland), where there are extensive French interests.

Killed in Street Car Accident.

Lansing, Mich., Aug. 21.—One man was killed and six persons were seriously injured in a street car accident at Dewitt, six miles from Lansing, last evening. The dead man's name is George Burton.

A STOLEN INVENTION.

How the Designer of the Hansom Cab Lost a Fortune.

Charles Hansom, the famous English architect, was a talented man in many respects other than in the exercise of his profession. He was dining on a certain day with a few friends when one of them taunted him with being unable to invent a vehicle which would supersede the old fashioned hacks and cabs in universal use in London. Mr. Hansom got a sheet of paper, and without any delay he sketched out his idea of a safe and convenient mode of passing through the crowded streets of the great metropolis. His friends watched him while he was at work and unanimously applauded the sketch which he had drawn. They dubbed it by the name of its inventor, and it was then and there called a "Hansom car." One of those present advised him to take out a patent for it, which he said he would do on the morrow. However, there was one dishonest man in the company, by whom he was forestalled, for on reaching his own house that evening and being, like Mr. Hansom, a clever draftsman, as all great architects are, he sketched out a car like the drawing he had seen, and early the following morning he took it to the office and got out a patent for it in his own name, thus robbing the talented inventor of all the remuneration which he deserved to reap from it. It brought an immense but ill gotten fortune to the one who had perpetrated the fraud, whereas Mr. Charles Hansom was never one penny the richer.—Donahoe's.

JACK TAR'S GIN.

The Way Liquor Was Smuggled Aboard One of Our Warships.

While on the China station in 1886 the master at arms' mess on the United States steamer Omaha was in a drunken and demoralized condition for several weeks. Try as he might the captain could not discover where the liquor was coming from. Finally all shore liberty was stopped, but the drunkenness did not cease. On the morning of sailing while the executive officer was near the port gangway watching the taking in of stores he asked what was in a large demijohn that came over the side with boxes and packages. He was told that it was vinegar. He pulled the cork and sniffed it. It was vinegar. Then his attention was attracted by the tag marked "master at arms' mess," and, remarking that the mess must be using vinegar for bathing, as he had already seen the same demijohn brought aboard twice within that week, he ordered the officer of the deck to inspect it carefully and taste it. He did; it was vinegar. That officer, however, noticed that the jug had an unusually long neck. He poured out a small quantity of vinegar and discovered an extra cork in the bottom of the neck. Below that were three gallons of gin. The vinegar between the corks had served to deceive the inspecting officer at the gangway for a month.—Chicago News.

Reckless Philanthropy.

An instance of what I should call reckless philanthropy has come to my notice. The story is told of a certain old and very wealthy lady who has never been known to give anything to anybody, but whose will must enrich many institutions—unless the estate is swallowed up by the lawyers. After spending half a lifetime selecting first one and then another charity for her post mortem benevolence she recently had qualms of conscience. She heard mysterious voices say, "Feed my lambs."

At first she took no notice. They became insistent. "At last," she says, describing the experience, "I took the money in my hand and set out to give a subscription to — home. On the way I had doubts. 'Feed my lambs,' I heard the voice. 'Feed my lambs,' Well, my dear, I trembled with agitation. I said, 'I will.' I felt I must do it and I did. I rushed straight to the office and I gave them 5 shillings."—London Times.

CONFIDENT THAT FEVER CAN BE CONTROLLED

Fifth Week of Campaign in New Orleans Finds All Full of Hope.

By Associated Press.

New Orleans, Aug. 21.—Full of hope the federal and local authorities and the public in general entered to-day upon the fifth week of the campaign against the fever, which is now considered to be beyond the stage when a serious epidemic is possible.

"In my judgment," said Dr. Beverly Warner, head of the volunteer forces who has been in close touch first with the local authorities and then with the federal, in an address at the Baptist church, "calamity was impending over this city a few weeks ago. Now the day of the impending calamity has passed. The decrease in the mortality as shown by the reports, is unprecedented and the situation is rapidly getting under control."

Dr. Warner said the passing of the calamity was due in a large degree to the splendid work of the Marine hospital service. He said that the daily record given out by the service was a true one. Nothing has been suppressed and truth and publicity have proved to be of the greatest benefit. Dr. Warner said that in the future, he would protest with all his might against the suppression of any health news. He did not believe that hereafter the citizens of New Orleans would permit on the part of any one a policy of concealment.

While the federal authorities now have no hesitancy in saying that the fever is being controlled and checked they are not ready to fix a date when it will be stamped out. The life of a stegomyia mosquito is perhaps two months and as here and there a stray infected mosquito is sure to avoid all the pitfalls laid for its destruction sporadic cases will doubtless appear after the disease is entirely under control.

Dr. White is expected back to-day from Mobile, whither he went to consult the health authorities there. In connection with the matter of the movement of freight from New Orleans there is great satisfaction over the announcement that Alabama will place no bars over the shipment of merchandise provided that the cars which carry it have been disinfected for the purpose of destroying mosquitos.

CURIOSITY

Leads to Investigation and Truth.

What shall we do to be saved? was the title of one of Robt. Ingersoll's lectures. People of faith and people of no faith flocked to hear it. Thousands are asking, "What shall I do to get rid of dandruff?" The answer is, "Kill the germ that causes dandruff, falling hair and finally baldness, and the only thing that will do it is Newbro's Herpicide. That is the very latest discovery of the laboratory, and it is the only preparation that claims to, or that will, kill the pestiferous dandruff germ. It also is a delightful hair-dressing, free from oil or grease or sticky substances. Try it, and be convinced of its actual merit. Sold by W. A. D'Alemberte, druggist and apothecary, 121 S. Palafox street, Pensacola, Fla. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Feed Is More Than Breed

THE right feed will convert the veriest scrub into a paying animal. Add Sucrene Dairy Feed to the present ration. Note the immediate

gain in milk and the improved appearance of the cow. The extra milk more than pays for the feed, while the evidence of better health indicates the complete assimilation of Sucrene Dairy Feed and a greater utilization of the roughage. It's the business end of the ration. A trial will convince.

toes. The acknowledgment of the Alabama authorities that freight itself will not carry infection is expected to have an excellent effect on the attitude of other states and it is anticipated that Dr. White will be solicited to use his influence in this direction with Mississippi and Texas. In this connection while Alabama is showing evidences of sanity in the treatment of the situation, the Texas authorities continue to put into effect every week severe rules until now it requires eleven days' detention to get into Texas.

Of the forty five new cases in the preceding twenty-four hours, four were found in one family and three in another. A new case has appeared in the French asylum on St. Ann street. A number of Norwegians and Swedes have been included in the lists of new cases recently, most of them being sailors. Quite a number of the forty-five new cases were reinfections in houses in the old district. The federal authorities watch each house in which a case appears twenty-five days after it is cured or died. If no new cases appear in that time the house is considered non-infected. Arrangements are now being made to arrange a complete list of non-infected houses. The Marine hospital is now considering the matter of establishing a detention hospital here independent of the emergency hospital. The idea is to place in it families whose homes may be infected, sending the patient to the emergency and the well members to the detention hospital. In that way it is thought that houses will be more rapidly cleared of infection. This is intended especially to meet the situation in foreign neighborhoods where the population does not yield readily to the regulations.

Lafayette and Alexandria are now free of fever, patients there having recovered. The announcement of Dr. Golleras that the second case at Bayne is not yellow fever has had a reassuring effect on the people in that town and in the surrounding country. Crowley, which slipped on a quarantine against Bayne, is preparing to raise it. No new point in the state outside of New Orleans was reported infected to-day.
